

## **The Most Powerful Forces on Earth**

*by Rev. David Sears, Reiki Master Teacher*

The most powerful forces on Earth and of Spirit are beliefs in faith. And that the true riches in life can be found only in our hearts and spirits.

Using Belief and Faith, our hearts and spirits work for peace, love joy and purpose.

Peace, love, joy, purpose—each of us has a purpose in life whether we are aware of it or not, we each make a difference every moment of every day with our choices and our actions.

I feel that Human Consciousness is similar to birds in flight, like starlings or sandpipers. When the flock bursts into flight, the synergy is amazing. At once, they are all flying together in one direction, and then in an instant, the entire flock will turn simultaneously and take a new direction. Now, if you study them in flight, there seems to be no single bird that makes the decision to turn, but rather it seems to be a Spirit or collective consciousness that instantly runs through the flock. And when viewed from afar the flock appears to be one animal, one organism, of one mind governed by the collective force in Spirit of all the individuals.

It is this same consciousness that runs through man, nature, and the Earth. It is our Life Force.

Thus, it can be in our collective consciousness that one idea, one thought, one heart-inspired belief empowered by faith, can affect the betterment of our society, community, and family. Namaste.
